#### Operational Procedures

1. FI's may run a hot or cold range within their areas, upon departure from this area everyone must adhere to the VCGHC policy of a cold range. Only on duty VCGHC Range Safety Officers (RSO's) and Law enforcement personnel may carry their weapons in accordance with their department policies.
2. FI's are responsible for their students and must be with them at all times when they are shooting. Everyone must complete a Sign in Log, a Liability Waiver Form, and wear eye protection at all times anywhere on the property. Hearing protection should be worn when near active shooting.
3. **Privately owned vehicles (POV's) are not allowed on the handgun firing range, they must remain in the designated parking areas outside of the large timbers. POV's are allowed on the rifle ranges to set up and check and change targets.**
4. Handguns must be carried to action bays fully encased, **they may not be hand carried in a holster.** Long guns must be fully encased or have a chamber flag installed, the magazine removed, and be pointed straight down with or without a sling. Long guns are not allowed to shoot at any VCGHC steel regardless of the caliber
5. No alcoholic beverages or empty alcohol beverage containers to be used as targets are allowed on the range at any time. Certain medications and shooting do not mix, do not shoot if you are on any medications that cause drowsiness or may otherwise impair your judgment.
6. Shooters are responsible for replacing any property damaged by their actions, absolutely no shooting of domestic livestock or wild game on the range. Do not bring glass containers of any kind to the range and be sure to clean up after yourself by putting appropriate trash into the provided barrels. **Cardboard targets and discarded sticks should be placed in the blue dumpster near the RV on the south end of the property.**
7. Please pick up all brass and it put into the brass buckets, cases other than brass should be disposed of in the trash barrels. You may take your own brass; however, brass that makes its way into the buckets becomes range property.
